CONTENTS

SPECIAL ISSUE: STUDIES IN MOLECULAR INTERACTIONS - A COLLECTION OF INVITED PAPERS IN HONOUR OF PROFESSOR WERNER A.P. LUCK

Preface ix

Estimation of the enthalpy of dimerization of acetic acid from Raman spectral measurements over the temperature range 25 to 275°C
J. Semmler and D.E. Irish (Waterloo, Canada) 1

Self diffusion in compressed tetrafluoromethane
M. Has and H.-D. Lüdemann (Regensburg, FRG) 7

Structure of electrolyte solutions in aliphatic amines. Part IV. Infrared study of perchlorates in ethylenediamine
P. Dryjański (Warsaw, Poland) 17

Intermolecular interactions of hydrogen sulphide and hydrogen selenide with some proton donors and proton acceptors in liquid phase
P.G. Sennikov, V.E. Shkrunin (Gorky, USSR) and K.G. Tokhadze (Leningrad, USSR) 29

The B-A transition of NaDNA in wet-spun oriented films. Influence of ethanol treatment and rigorous dehydration
H. Fritzsche (Jena, GDR) and A. Rupprecht (Stockholm, Sweden) 39

The influence of ammonium and tetra-N-alkylammonium ions on water
Z. Libuś and K. Chachulska (Gdańsk, Poland) 53

Solvent effects on CO_2 and CSe_2 investigated in the infrared for connection between frequency shifts and bandwidths
W.E. Steger and E. Pigorsch (Dresden, GDR) 65

Rotational isomerism of chloroacetone: solvent effect
M.I. Redondo and M.V. Garcia (Madrid, Spain) 75

Near-infrared studies of HDO in D_2O + acetonitrile + $Zn(ClO_4)_2$ system
J. Stangret and M. Męcik (Gdańsk, Poland) 83

Near-infrared spectroscopic study of the structures of water in proton acceptor solvents
A. Burneau (Vandoeuvre, France) 99

Vibrational frequency shifts in IR absorption and emission spectra of liquid carbon monoxide. Monte-Carlo simulation
S.Kh. Akopyan and S.I. Lukyanov (Leningrad, USSR) 129

H/D isotope effects in the self-association of alcohols
A. Kolbe (Halle, GDR) 141

Infrared dispersion and vibrational intensities of liquid trichloro-acetonitrile
M.A. Czarnecki and J.P. Hawranek (Wrocław, Poland) 151

Neutron scattering studies of aqua-ions
G.J. Herdman and G.W. Neilson (Bristol, U.K.) 165

Calculation of vibrational line shifts for molecular dimers
U. Buck and B. Schmidt (Göttingen, FRG)..... 181

Spectroscopic studies of the solvation of carbon dioxide in protic and aprotic solvents
G. Eaton and M.C.R. Symons (Leicester, U.K.)..... 197

Hydrogen-bond cooperativity
G.V. Yukhnevich (Moscow, USSR)..... 211

Dielectric behaviour of DMSO-water mixtures. A hydrogen-bonding model
A. Luzar (Ljubljana, Yugoslavia)..... 221

Monitoring intermolecular forces by high pressure infrared spectroscopy ?
Th.F. Mentel and W. Kümmel (Marburg, FRG)..... 239

Dynamic behaviour of water molecules with trigonal coordination in solid hydrates
H.D. Lutz and N. Lange (Siegen, FRG)..... 255

Critical behaviour of strong hydrogen bonds and the isotopic effects
Th. Zeegers-Huyskens and L. Sobczyk (Leuven, Belgium)..... 263

Thermodynamic and spectroscopic entities
P. Huyskens (Leuven, Belgium)..... 285

Raman spectrum of liquid water and Luck's two state model
M.C. Shivaglal and S. Singh (Madras, India)..... 297

On long and short hydrogen-bonds
H. Kleeberg (Marburg, FRG), V.Videnova-Adrabińska (Wrocław, Poland), and Th. Wess (Marburg, FRG)..... 305
